Hiring Manager

Hispeedcity Sdn. Bhd.

Subject: Application for IR4.0 / AI / IoT Internship (Sept–Dec 2025)

Dear Hiring Manager,

I am writing to express my keen interest in the internship opportunity at Hispeedcity Sdn. Bhd., focusing on IR4.0, Artificial Intelligence (AI), Internet of Things (IoT), software development, UX/UI, cloud, and network technologies. I am a final-year student pursuing a Bachelor of Computer Science (Hons.) in Netcentric Computing at Universiti Teknologi MARA (UiTM), Jasin, and I am required to complete a 14-week internship from 15 September to 19 December 2025.

My academic background and project experience reflect a strong foundation in full-stack development, mobile apps (Flutter), RESTful API integration, and user-centered design. In my final year project, I developed a mental health support platform using geolocation and integrated real-time features. I also built a location-based restaurant reservation system with email automation using Mailtrap API. These projects sharpened my technical abilities in Next.js, Laravel, MySQL, and real-time data handling.

What draws me to Hispeedcity is your involvement in cutting-edge areas such as IR4.0 and AI-driven solutions. I am eager to contribute to impactful innovation and be mentored by experts in your team. I am particularly interested in combining my technical knowledge with UX/UI principles to create intuitive and intelligent applications.

Please find my resume and university letter attached for your review. I would be grateful for the opportunity to grow and contribute as an intern at Hispeedcity.

Thank you for your time and consideration.

Warm regards,

Mohammad Muizzuddin Bin Saiful Bahri
